Background & Discussion

SEA Rule 17a-5 requires member firms to file with FINRA monthly and quarterly reports concerning their financial and operational status (FOCUS Reports). FOCUS Reports provide FINRA with valuable information regarding a member firm's business; however, FINRA believes that it can better discharge its regulatory obligations with the benefit of additional information that gives FINRA a more complete and detailed view of a member firm's business operations. FINRA, therefore, is requesting comment on a proposed rule that requires firms to file such additional financial or operational schedules or reports as FINRA may deem necessary or appropriate for the protection of investors or in the public interest. The content of any future proposed schedules and reports, their formats and the frequency of such supplemental filings, would be specified in a future *Regulatory Notice* (or similar communication) to be filed with the SEC.

In connection with the proposed rule, FINRA is proposing a supplementary schedule to capture with more specificity information from the Statement of Income (Loss) page of the FOCUS Report Parts II and IIA. The forms currently in use do not contain sufficient detail of revenues earned or expenses incurred by product or other more specific categories, thereby driving firms to report much of their revenue and expense as “other” (miscellaneous). FINRA believes the expanded revenue and expense information on the proposed supplementary schedule would provide FINRA greater transparency into a member firm’s business activities and would better illuminate industry trends, allowing for more focused examinations. Many line items are not applicable to firms with limited product offerings, thereby reducing the burden of completing the form.

As part of the proposed supplementary schedule, FINRA would require additional information with respect to a member firm’s underwriting and/or selling group activities when revenue from unregistered offerings exceeds 10 percent of total revenue. Member firms that exceed the 10 percent threshold would need to complete the corresponding section of a new Operational Page that is referenced in the proposed supplementary schedule.

Endnotes

- 1 FINRA will not edit personal identifying information, such as names or email addresses, from submissions. Persons should submit only information that they wish to make publicly available. - 2 Section 19 of the Securities Exchange Act of 1934 (SEA or Exchange Act) permits certain limited types of proposed rule changes to take effect upon filing with the SEC. The SEC has the authority to summarily abrogate these types of rule changes within 60 days of filing. See Exchange Act Section 19 and rules thereunder.
